## KEUKEN

Met zelfklevende interieurfolie geef je keukens snel en efficiënt een nieuwe uitstraling. Het grote voordeel van wrappen in plaats van overspuiten, is dat de folie stootvast en afneembaar is. Je kunt de folie zelfs gebruiken voor het aanrecht. Wrap de volledige keuken in iedere mogelijke kleur of dessin en creëer een unieke look. Het wrappen van de keuken is dé voordelige optie voor een nieuwe keuken. De interieurfolies van Bodaq en 3M DI-NOC zijn hier perfect voor.

## WANDEN & PANELEN

Geef ruimtes een unieke uitstraling. Het wrappen van wanden en panelen is vaak een betere optie dan schilderen of behangen en het plakken met zelfklevend vinyl heeft meerdere voordelen. Kies een folie met betonlook voor een industriële look of haal de natuur in huis met een warme houten muur die niet van echt te onderscheiden is. Marmer creëert een chique effect op de wand en effen kleuren zijn tijdloos. Onze wandfolies zijn slijtvast en makkelijk afneembaar en worden daardoor veel in ziekenhuizen toegepast. De folies hebben een voelbare structuur waarmee je diepte en sfeer geeft aan een interieur.

## MEUBEL

Is je klant uitgekeken op zijn meubels? Creëer een 'nieuwe' inrichting door meubels te voorzien van interieurfolie. Door het wrappen van meubels met een nieuwe kleur of dessin zorg je voor een compleet nieuwe look. Denk ook aan winkelinrichtingen in herkenbare huisstijl. De mogelijkheden voor meubelwrapping zijn uiteenlopend met onze interieurfolies.

## SANITAIR

Onze interieurfolies zijn onderhoudsvriendelijk, waterafstotend, slijtvast en de naden kunnen worden geseald. Hierdoor is ook de volledige badkamer geschikt om te restylen met interieurfolie. De badkamermeubels, de muren en zelfs het sanitair zoals bad en douche kunnen beplakt worden met een nieuwe kleur of dessin. Interieurfolie is enorm veelzijdig en vele malen goedkoper dan het plaatsen van een nieuwe badkamer en daardoor een ideaal alternatief, zowel zakelijk als particulier.
